

GUIDE-DOC-070 Approval Note Format

Revision A · Owner: Technical Services · Classification: Internal

1. Purpose

Approval notes request a decision from the approving authority. They are drafted by the engineer and approved by a person with delegated authority.

2. Structure

Subject; Background; Findings with references to the source reports and page numbers; Recommendation; Cost and schedule impact; Risks of not acting; Approvals required.

3. Rules

Every number in the note shall be traceable to a source document. The note shall not state that equipment is safe to operate; that judgement belongs to the approving authority.
